

# Community Capacity Building Coordinator for Roehampton

Do you have the skills and drive to support and enable a local area to maximise their community potential?

Citizens Advice Wandsworth (CAW) in partnership with Wandsworth Council would like to hear from candidates with strong skills in community capacity building in terms of facilitating, planning, supporting and working with various new and established community groups and organisations as well as engaging with local residents to enable a thriving and vibrant community and voluntary sector in Roehampton.

The Roehampton Community Capacity Project, run by CAW, is an innovative three-year project to explore a new approach to harnessing and developing the capacity of local people and communities within the ward of Roehampton and Putney Heath in the Borough of Wandsworth. Roehampton, as an area, emerged in the late 1960s with the development of the Alton Estate and since then has experienced significant demographic and social change.

Ideally you will have experience in developing/supporting and facilitating community-led projects in an asset-based manner, if you have experience within a metropolitan area with diverse communities this will be an advantage. You will need to find practical solutions to problems, assist people/groups to develop ideas and nurture community-based projects as well as prepare funding bids. This role will focus on engaging a wide range of individuals from various segments of the population. You will also need to form appropriate relationships with a wide range of partners, stakeholders and institutions that have a presence within the locality.

This is an exciting opportunity for the right individual to make a real difference to the lives of people living in Roehampton. See [this link](#) for the health profile of Roehampton.
